

# Public Alert COVID-19

**Effective June 22**

## Visitation at our Forest Hill Location

With additional COVID-19 activity in the greater Aroostook County area, we have made the difficult decision at this time to suspend outside visitation at Forest Hill.

## Visitation on our Swing Unit

Visitation is also suspended on our post-acute nursing skilled unit in the hospital.

**Northern Maine Medical Center is committed to the safety of our patients and residents of Forest Hill. We recognize the hardship this may cause as we carefully consider the protection of your loved ones.**

**CDC recommends everyone wear face coverings when leaving their homes and when keeping the six feet of social distancing is not possible.**
